A question has arisen as to why the handwritten name [redacted] appears on a page of the intra-office memorandum from Philadelphia captioned, "New Left Notes - Philadelphia," dated 9/16/70 which was stolen from the Media Resident Agency. SAC Joe D. Jamieson of the Philadelphia Office advised on 4/16/71 that [redacted] was a resident agent at the Media Resident Agency at the time the above-mentioned intra-office memorandum was routed to the resident agency. SAC Jamieson further stated that his name was written at the bottom of the first page of this memorandum simply for routing purposes since he handled matters set forth in the memorandum. When SAC Jamieson was called on 4/16/71 he contacted SA [redacted] the Supervisor in the Philadelphia Office who wrote the memorandum and Anderson stated that he did not personally route this memorandum to [redacted] since this was not his handwriting. SA [redacted] thought that his secretary, [redacted] probably routed it to [redacted] by writing his name on the bottom. [redacted] was on leave for the entire day at the time SAC Jamieson contacted SA [redacted]. She will be contacted on Monday, 4/19/71, concerning this matter when she returns to duty.

It should be noted that with the closing of the Media Resident Agency, SA [ ] will be working directly out of the Philadelphia Office commencing 4/19/71. A letter dated 4/16/71 is being directed to him transferring him from Media to Philadelphia. He was censured by letter 3/18/71 in connection with the theft at the Media Resident Agency for his failure to provide proper security for serials charged to him and he was also placed on probation. The intra-office memorandum referred to above was one of the serials involved where proper security was not afforded. ( )

On 4/24/70, at approximately 4:30 a.m., [redacted] and [redacted] were apprehended by Delaware River Port Authority Police. They were charged with failure to pay fare on public conveyance and failure to give a good account. At the time of the arrest they had on their persons drawings of U. S. Courthouse and Post Office, Camden, N. J. [redacted] had in her possession a piece of paper with a hand drawn sketch of the rear of the Post Office Building, which houses local draft boards on the fourth floor. In addition, offices of the U. S. Attorney, FBI, and Federal Court offices are located in the building.

[redacted] also had in her possession a notebook containing notes of surveillance observations made in the area. [redacted] had a number of three by five index cards which contained drawings of floor plans of the Post Office Building and additional surveillance notes. Included in the notebook of [redacted] were two addresses of Media, Pa. One showed the name of [redacted] Media, Pa., and the other showed Media Fellowship House, (565-0434) (calls being taken LO 6-3950).

Enclosed for the Bureau is a xeroxed copy of pages two through 26 of a report of SA [redacted] dated 4/8/71.

BS 100-31050

He has a [redacted] who is a professor of Philosophy at Swarthmore College, Swarthmore, Pa. He is approximately 36 years of age, has one child, age 8, and is married to [redacted] of [redacted] Marblehead, Mass. [redacted] is a Harvard graduate, having received his A.M. there and his Ph.D. at Stanford. He was a [redacted] having spent two years at Oxford. He has taught in the Philosophy Departments of the following universities: U

Stanford University two years  
Stanford, California

Brown University one year  
Providence, Rhode Island

Brandeis University three years  
Waltham, Massachusetts U

University of Massachusetts four years  
Amherst, Massachusetts

Swarthmore College where he has been for  
Swarthmore, Pennsylvania approximately three years

[redacted] is an intelligent individual and up until recently was very close to his uncle. During the past summer, [redacted] returned to Marblehead with his wife and young child and was accompanied by a younger white male, [redacted] LNU and a young white female, name unknown, both of whom are believed to be a faculty member and student respectively of Swarthmore. U

[redacted] was very evasive while at home and would have nothing to do with his uncle who is a circuit court judge. U

One day approximately a week ago, [redacted] wife [redacted] mentioned to her mother of the same name, that is, [redacted] that her husband [redacted] was very much involved in some organization at Swarthmore College. [redacted] has been living in a "state of apprehension" because of his dedication to this program or cause. [redacted] made a statement to her mother to the effect that she had better "stock up on your canned goods" because in October of this year, she would have difficulty in obtaining food. The implication was made U

BS 100-31050

the organization that her husband was involved in would cause something to happen in October on a national scale that would affect transportation lines and eventually affect the distribution of food. Nothing else was mentioned, no other areas, timetables or otherwise. U

After this was conveyed to the elder [redacted] she in turn furnished it to [redacted] wife of Judge [redacted]

Judge [redacted] further advised that his nephew [redacted] was involved in a cause at Swarthmore called "TENSOR", which was supposedly a discussion group of which [redacted] was the central figure. U

Both Judge [redacted] and [redacted] emphasized the importance of not approaching [redacted] nor the elder [redacted] since this could possibly cause a great deal of embarrassment and consternation on the part of all involved. Judge [redacted] advised that he would attempt to obtain further pertinent information and relay it immediately to the FBI. U

Judge [redacted] furnished the following description of his son:

Race:	White
Sex:	Male
Age:	35-36
Height:	Approximately 5' 10"
Weight:	Approximately 170 lbs.
Eyes:	Dark brown
Hair:	Dark brown
Build:	Athletic
Miscellaneous:	Pleasant character, a vegetarian, usually wears dungarees and rides a motorcycle

BS 100-31050

From a review of Boston indices, it is apparent that references indicate that subject is identical to individual in BS 100-31050 and wife is identical with subject in BS 100-31051 and for this reason, referenced enclosures are being furnished Philadelphia. U

Judge [ ] advised that his nephew [ ] traveled to Europe approximately two years ago and during that time was supposedly in Greece. U

Boston indices are negative on subject's uncle, Judge, [ ] and associate [ ] U

LEADS

Lab. No. D-710416065 LC

Specimens received 4/16/71

Q151 Envelope postmarked "PHILADELPHIA, PA PM 31 MAR 1971 2A," bearing typewritten address [redacted] Registrar's Office West Chester State College West Chester, Pa." U

Q152 Accompanying copy of typewritten letter dated 3/31/71, beginning "On March 8th, the Citizens Commission..." U

## Result of examination:

The typewriting on Q151 is Royal Merit Elite style of type. This same style of type was used in the preparation of Q127 and other specimens previously submitted in this case. However, it was not determined whether these specimens were prepared on the same typewriter because of the lack of significant characteristics on which to base a definite conclusion. U

Q152 is an additional Xerox copy of Q127, previously submitted. Q152 was not prepared on the questioned Xerox Model 660 copier used to prepare specimens previously submitted in this case. U

No watermarks, indented writing of value, or other marks which would indicate the immediate source of this material were noted on Q152. U

Q151 is a United States Post Office stamp-embossed envelope and no indented writing of value was noted on this specimen. U

The submitted evidence will be returned separately.

Photographs are retained. U

During investigation at the Princeton, New Jersey, Post Office, concerning copies of surface documents in the MEDBURG case, which were mailed from Princeton, New Jersey. Postal employees were alerted to bring to our attention the mailing of any envelopes similar to those used in surfacing documents.

On 4/13/71, Postal Official called this office and advised that he had a bundle of mail with handprinting, many of which contained the dinosaur stamp, known to have been used in other mailings. He made these letters available. They were photographed.

Enclosed for the Bureau are seven photographs of these letters. The Laboratory is requested to compare the handprinting in these photographs with pertinent documents in the MEDBURG case.

Attached indicates publication of FBI documents directly attributed to RESIST, a national peace organization in Cambridge, Massachusetts. The "Harvard Crimson" issue of March 26, 1971, made mention of the fact that RESIST had received stolen documents from the Citizens Commission to Investigate the FBI. We are checking with Boston to determine the specific identity of these documents, and the Internal Security Division of the Department is being advised. U

Specimens received

4/7/71

Request examination of the envelopes and copies referred to in Butel 4/3/71 to determine the following: U

Could the typewriting be IBM Prestige Elite style of type U

Was it made on a manual, electric, or portable typewriter U

Was a fabric or a carbon ribbon used U

Result of examination:

The typewriter impressions on Q100 through Q111 are Royal Merit Elite style of type and not IBM Prestige Elite. U

A fabric ribbon was used in the preparation of the typewriter impressions on the envelopes, Q100, Q102, Q104, Q106, Q108, and Q110. It is not possible to determine the model of the Royal elite typewriter used in the preparation of Q100 through Q111 since Merit Elite style of type is used on the electric, standard and, on special purchase, the portable typewriter, also. The type of ribbon used to prepare the typewriter impressions on Q101, Q103, Q105, Q107, Q109, and Q111 cannot be determined from the copies submitted. U

SUBJECT: MEDBURG  
(Origin: Philadelphia)

Re Bureau teletype 4/3/71.

710407061

Referenced Bureau teletype advised that six original envelopes and copies of letters received in Philadelphia by individuals whose names were taken from serials stolen from the Media Resident Agency were examined by the Laboratory. They contained typewriter impressions that most closely resembled a Laboratory standard for Royal Merit Elite style of type which prints twelve characters per inch. U

On 4/6/71, [redacted] and [redacted] Royal Typewriter Company, 3913 Chestnut Street, Philadelphia, Pa., furnished the following information: U

1. Royal Merit Elite has been in use for about ten years and was created to compete with IBM Prestige Elite. It is almost impossible to distinguish between the two. U
2. About 6,000 typewriters per year are sold in the Philadelphia area with perhaps ten per cent having Royal Merit Elite type. This would mean that in the past ten years about 6,000 typewriters with the pertinent type have been distributed in the Philadelphia area. U

3. Royal Merit Elite type can be used on portables, manual, and electric typewriters. U
4. The Royal Typewriter Company District Office, 3913 Chestnut Street, Philadelphia, Pa., is the only place in Philadelphia where a new Royal typewriter can be purchased. Second-hand typewriters can be purchased from numerous outlets. U
5. - Records are available in the Philadelphia District Office for the past two years listing purchasers of Royal typewriters indexed by serial numbers. Records older than two years have been destroyed. U
6. The headquarters of Royal Typewriter Company, a division of Litton Business Systems, Inc., is at Hartford, Conn. An index is maintained there, only by serial number, of all typewriters sold. These records would not indicate the type face or the purchaser's name. U

The Laboratory is requested to examine the envelopes and copies of letter referred to in referenced Bureau teletype and advise if it is possible to determine the following: U

1. Could the typewriting be IBM Prestige Elite style of type. U
2. Was it made on a manual, electric, or portable typewriter. U
3. Was a fabric or a carbon ribbon used. U

Philadelphia is conferring with officials of District Office, Royal Typewriter Company, re feasibility of checking names of suspects against purchase records. U

Specimens received 4/8/71

K245 Application for Employment form dated 5/3/68, bearing  
handwriting and hand printing of [redacted]

Result of examination:

Due to the presence of characteristics in the questioned hand printing on Q48 and Q49 which could not be explained on the basis of the available known hand printing, it was not possible to determine whether this material was or was not prepared by [redacted] K245. U

The submitted evidence is returned herewith.

She reportedly withdrew from Monroe County College (MCC), Rochester, New York, January, 1968, upon completion of one and one half years. At that time she was disillusioned with the type of education being offered at college, and gradually became more concerned with anti-war movements and other social problems. U

She has been affiliated with local Rochester, New York peace organizations and numbers among her associates Doctor [redacted] and [redacted] and [redacted] all of whom have been active in organizations called Friends of the Flower City Conspiracy and Rochester Bail Funds. She has many acquaintances, for the most part unknown to her parents, in Boston, New York, Philadelphia, Baltimore, and Washington, some of whom have been closely associated with peace organizations in those cities. U

Her absences from Rochester during the period subsequent to October, 1970 included a six week visit to Washington, D. C. in October and November, 1970, where she reportedly worked with Catholic nuns in Intercity type activities; a visit to Boston, Massachusetts in the latter part of February, 1971 to attend a trial of a Conscientious Objector; and more recently traveled to New York City to visit friends in that area commencing March 7, 1971. She has not returned as of this date. U

## APPENDIX

BLACK PANTHER PARTY  
also known as  
Black Panther Party  
for Self Defense

According to the official newspaper of the Black Panther Party (BPP), the BPP was started during December 1966, in Oakland, California, to organize black people so they can take control of the life, politics, and the destiny of the black community. It was organized by BOBBY G. SEALE, BPP Chairman, and HUEY P. NEWTON, Minister of Defense, BPP. U

The official newspaper, called "The Black Panther," regularly states that the BPP advocates the use of guns and guerrilla tactics in its revolutionary program to end oppression of the black people. Residents of the black community are urged to arm themselves against the police who are consistently referred to as "pigs" who should be killed. U

The newspaper, in its issue of September 7, 1968, had an article by the then Minister of Education, GEORGE MURRAY. This article ended with the following: U

"Black men. Black people, colored persons of America, revolt everywhere! Arm yourselves. The only culture worth keeping is revolutionary culture. Change. Freedom everywhere. Dynamite! Black power. Use the gun. Kill the pigs everywhere." U

The BPP newspaper, issue of October 5, 1968, had an article introduced with the following statement: "We will not dissent from American government. We will overthrow it." U

DAVID HILLIARD, Chief of Staff, BPP, in a speech at the San Francisco Polo Field on November 15, 1969, said "We will kill RICHARD NIXON." U

DAVID HILLIARD, in "The New York Times," issue of December 13, 1969, was quoted as follows: "We advocate the very direct overthrow of the government by way of force and violence." U

In the issue of April 25, 1970, the BPP newspaper had an article by Minister of Culture, EMORY DOUGLAS, as follows:)

"The only way to make this racist US government administer justice to the people it is oppressing, is .....by taking up arms against this government, killing the officials, until the reactionary forces .....are dead, and those that are left turn their weapons on their superiors, thereby passing revolutionary judgement against the number one enemy of all mankind, the racist U. S. government." )

The BPP Headquarters is located at 1046 Peralta Street, Oakland, California. Branches of the BPP, and Committees to Combat Fascism, under control of the BPP, have been established in various locations in the USA.)

Enclosed for NY are two copies of referenced airtel for background information and three FBI Lab specimens labeled Q15, Q51, and Q67. U

On 4/8/71, [ ] Physicist, Olivetti-Underwood, Laboratory, Englewood Cliffs, NJ, examined the enclosed specimens and advised that they were definitely produced on an Olivetti copier. He stated that these copies were made on one of the following Models: Copia II, Copia III, or Coin-Cop. U

[ ] further stated that the Englewood Cliffs Lab does not have the technical capability to examine the specimens for individual markings which might be identifiable with the machine used to make the copy. He advised Olivetti Lab at Happaug, Long Island, NY, is the facility properly equipped to make such an examination. U

[ ] stated that the inquiry at the Happaug Lab should be directed to [ ]

# FBI files reveal variety of informers

By Michael Kenney  
Globe Staff

By distributing a careful selection from its cache of stolen documents, the Citizen's Commission to Investigate the FBI has given clear indication of how it has operated since the raid on the FBI's Media, Pa. office a month ago.

The latest packet containing eight documents and texts of two letters from the Citizen's Commission was received by mail over the weekend.

One of the documents was a memorandum to FBI Director J. Edgar Hoover indicating a security investigation was made last fall

on the 21-year-old daughter of US Rep. Henry S. Reuss (D-Wis.).

But taken together, the eight documents give a picture of the great variety of people used by the FBI as informers. ~~B. APPROX 1950~~

To obtain routine biographical information on Jacqueline Reuss, the FBI went to a logical person, the secretary to the registrar at Swarthmore College where the girl is a senior. But in the memo forwarding the information to Washington, the registrar's secretary was described as an established source who had requested that her identity be kept secret.

A second document also described information obtained last fall from Swarthmore College sources on a philosophy professor suspected of being in contact with two former Brandeis University students wanted in connection with the slaying of a Boston policeman during a Brighton bank robbery last fall.

Swarthmore's chief switchboard operator gave information about the professor's relations with the university administration; its chief security officer reported that college stu-

dents often visited the professor's house.

In connection with an investigation of a young woman member of the Student Mobilization Committee and the Young Socialist Alliance, the FBI last fall contacted a credit bureau manager as well as a police detective.

When the bureau sought information last spring on the finances of the National Black Economic Development Conference, it got microfilm copies of the group's checks and copies of its monthly statements through an official of the bank's computer center.

The dean of student affairs at Lincoln University, which is a predominantly black institution in Chester, Pa., told of his contacts with students active in the Black Power movement in 1967 and said he would keep the Pennsylvania state police informed.

Liberation Front informed on that group early this year. She told of fights and dissension among the members and thought the group was about to break up.

A handwritten memo indicated that the secretary to the director of studies at the Quaker Upland Institute in Chester, Pa. had furnished unspecified information in 1966.

The final document in the packet referred to a current investigation on the Revolutionary People's Constitutional Convention and reported information on a student obtained from the assistant chief of the Rutgers College campus police. The official was described in the memo as an established and reliable source.

None of the documents indicates whether the FBI's sources were paid.

With these documents in its possession, the Citizen's Commission wrote to the

informers on March 30 telling them they had a week to "make whatever plans you wish for the future." At the end of that time the letter said the informer's identity would be revealed to the person or organization he had informed on. The letter concluded that "the struggle for freedom and justice in this society can never succeed if people continue to betray their brothers and sisters."

Then on April 3, the Citizen's Commission wrote to persons and groups informed on, sending them the documentary evidence about the informers.

These letters were written on FBI stationery, apparently stolen during the raid. To create their own letterhead, the words "CITIZEN'S COMMISSION TO INVESTIGATE THE" were typed above the printed words "FEDERAL BUREAU OF INVESTIGATION."

# FBI Tailed Rep. Reuss's Daughter

By Michael Kenney  
Globe Staff

The Federal Bureau of Investigation has been checking on the daughter of Rep. Henry S. Reuss, an antiwar congressman from Wisconsin, according to information contained in a document stolen during a raid on the Bureau's Media, Pa., office.

A third packet of documents was distributed yesterday by the Citizens Commission to Investigate the FBI, a group which has claimed responsibility for the Media raid March 8.

It included a memorandum to FBI Director J. Edgar Hoover from the Philadelphia special agent-in-charge relating information about Jacqueline Reuss, 21, a senior at Swarthmore College.

Special Agent. Donald

Hanning of the Bureau's Washington public information staff said yesterday the FBI had no comment on the document concerning Miss Reuss.

The FBI has assigned 60 of its 240 Philadelphia-area agents to work full time on the investigation of the Media theft, according to the Philadelphia Evening Bulletin.

The case has been given a priority rating of "special," the Bureau's highest rating.

The agents are working in a task force headed by Special Agent William Anderson, head of the Bureau's New Left desk. In addition, four inspectors have been sent into the Philadelphia area to establish new security procedures.

The Reuss memo was written Nov. 19 and was based on information obtained from a secretary to

the registrar at Swarthmore. She was identified in the document as an established source who had asked the FBI not to reveal her identity.

Dr. Robert Cross, president of Swarthmore, said yesterday he had spoken to the secretary and that she had denied being an established source.

Reuss was en route to an economic conference in Singapore yesterday, but his administrative assistant Donald L. Robinson, said he had "no idea why they were following Jackie (Miss Reuss) unless it was to get at Reuss because of his antiwar views." Robinson said he did not think Miss Reuss was involved in student antiwar campaigns to any great extent.

Reached in Philadelphia last night, Miss Reuss said she "knew the FBI was checking on me last fall." She had assumed the investigation was "the typical sort of thing — leftist activities."

She said she had been a member of the Swarthmore Students for a Democratic Society about two years ago but was not involved in any organizations now.

When the 1000 documents were first stolen, the Justice Department said that among them was one pertaining to a member of a congressman's family. They said that, taken by itself, it might misrepresent the FBI's activities. They said the congressman had been informed of the investigation and told at its conclusion that no further action was contemplated.

The one-page document was one of eight in the latest packet, mailed anonymous from Philadelphia to this reporter. The packet also contained the text of a letter which the Citizens Commission has sent to FBI informers whose names were on lists stolen during the Media raid.

The memorandum was titled "Jacqueline Reuss, Information concerning — Security Matter."

It said the secretary had forwarded to the FBI information from Miss Reuss's file in the Swarthmore registrar's office. It

dealt with Miss Reuss's educational background, particularly the fact that she had spent parts of the 1969 and 1970 college semesters in France at universities in Nanterre and Avignon.

The information from the secretary identified Miss Reuss's parents by name and gave their Washington address but did not identify Reuss as a congressman.

A Democrat, Reuss represents a district in Milwaukee. He is 59 and was graduated from Harvard Law School in 1936. In 1969, as a member of the House Government Operations Committee, he headed a probe into the sheep kill at the Army's Dugway, Utah, Proving Ground. A longtime opponent of the war, last week he publicly endorsed the April 24

Washington peace march.

Copies of the memo were noted to be sent to the Alexandria, Va., and Milwaukee, field offices. Scrawled in one corner of the memo was the signature "J. O'Connor," apparently that of Special Agent James L. O'Connor, who wrote the Philadelphia FBI's "New Left Notes," a document contained in the first packet sent out by the Citizens Commission.

Commenting on the memorandum, Robinson said: "We never made any secret of the fact that she was studying in France . . . It's really stupid of them (the FBI) to collect this stuff."

Cross told the Philadelphia Evening Bulletin he had seen a copy of the Reuss memo several days ago and had assigned Deborah Townsend, dean of women, to discuss it with Miss Reuss.

Dean Townsend said Miss Reuss had given no indication that she had applied for a government job of the kind which would require a security check. She said she had "no idea whatsoever" why the FBI had sought information on her.

Cross said the informa-

tion forwarded to the FBI by the registrar's secretary was "routine" and would have been turned over to the FBI or similar government agency as a matter of course.

On Friday, Cross said Swarthmore faculty, students or staff who divulged confidential information risked dismissal. Documents distributed earlier by the Citizens Commission had showed that the chief switchboard operator and the chief security officer at Swarthmore had been FBI informers.

All the material distributed yesterday by the Citizens Commission to Investigate the FBI dealt with informers.

One document was a Pennsylvania State Police intelligence report on a 1967 interview with the dean of student affairs at Lincoln University, a predominantly black institution in Chester, Pa.

The dean said he had talked with students active in the Black Power movement and that he would supply information on their activities to the state police in the event there was violence on or off campus.

Another document, dat-

ing from January, contained information from an informant in Philadelphia's Black United Liberation Front office.

The Citizens Commission also distributed the text of a letter which it had mailed March 30 to informants.

"We realize," the letter said, "that the FBI sometimes uses coercion of one kind or another in obtaining information from people like yourself. However the people you have been spying on are, on the whole, attempting to work for a more just and open society. Your cooperation with the government is seriously hindering this work."

The letter suggested that the recipient might "want to openly discuss this matter with those you have been informing on. You will probably find them very understanding and willing to help you." but "don't expect the FBI to help you. They have a habit of using people like yourself and then forgetting about them once their usefulness is over."

"The struggle for freedom and justice in this society can never succeed if people continue to betray their brothers and sisters."

Re Philadelphia teletype, 4/14/71, identifying  
prime suspects in Baltimore Division as [redacted] and  
[redacted] and suggesting investigative procedures  
re these suspects. U

Prior to receipt of referenced teletype, Baltimore  
conducted the following investigation re [redacted] U

Her employment as a teaching sister in the order  
known as [redacted] for the past four  
years in Baltimore was verified. The Provincial Secretary  
of this order advised that [redacted] nun and those  
with whom she resides in Baltimore, may be sympathetic to  
the anti-war movement and participate in peace activities;  
however, she has never known them to be affiliated with  
any such activities which have extended to illegal acts. U  
The principal of the school where she teaches advised that  
she was present during the entire early part of March,  
including 3/8 and 9/71. The school secretary furnished  
records reflecting that all nuns of this order who teach with  
[redacted] were also present during the aforementioned time. Both  
the principal and the school secretary advised that no information  
has come to their attention indicating the possibility of  
[redacted] having been away from Baltimore during March, 1971. U

An attempt was made to interview [redacted] on 4/14/71 at her residence, [redacted], Baltimore, Maryland. Upon being advised as to the nature of this interview and the violations involved, Sister [redacted] remarked that she was aware of the Media incident from reading about it in the newspaper, but did not furnish any additional comment. U

Investigation also disclosed that a xerox 660 copier is not located at [redacted] residence or place of employment, nor is she known to have access to one. The typing on leaflet circulated by "The Defense Committee" in Baltimore, in support of the Harrisburg 6, reflecting the name of [redacted] appears not similar to the typing on the news release circulated by "the Citizens Commission to Investigate the FBI." Copies of these two documents are being forwarded to the Laboratory to determine whether there are any similarities. U

In the absence of receipt of any additional information indicating possible Medburg implication of Sister [redacted] Baltimore is not considering her a prime suspect. U

UACB active investigation by Baltimore will be concentrated on suspect [redacted] considering the possibility of developing further suspects, including [redacted] during the course of this investigation. U

[redacted] Washington correspondent for the "Daily World," National Press Club, Washington, D.C., furnished the following information: U

[redacted] stated he was in possession of a packet of copies of documents allegedly stolen from the Federal Bureau of Investigation (FBI) at Media, Pennsylvania. He stated the reason he was calling the FBI was because he wanted someone to come to his office at the National Press Club and "authenticate" the copies in his possession. [redacted] stated he wanted to determine in this way whether the documents in his possession were "real or not." U

[redacted] refused to advise where he had obtained the copies, how many copies he had in his possession, or the nature of the copies. He refused to furnish any additional information concerning their acquisition and stated he merely wanted to learn if the copies were genuine or not. U

[redacted] was advised that the FBI would send someone to his office to pick up the documents if he would turn them over to the FBI. He advised he would refuse to release the documents in his possession to the FBI at this time. U
